## VISION

The lives of Saskatchewan children and youth who face barriers to participation are enhanced through participation in sport, culture and recreation activities.

Giving kids the chance to participate helps to build a diverse group of active, healthy and successful community leaders.

We believe participation leads to:

- Gainful employment or post-secondary schooling following high school
- Engagement in extracurricular activities outside of school
- Increased positive emotional support in the community
- Development of cultural knowledge, self-efficacy and sense of belonging
- Learning of technical skills that support enhanced fitness levels, physical literacy and participation
- Feeling a sense of social belonging
- Improvement of overall health and well-being
- Growth of leadership and relationship developmental skills

So **ALL** Kids Can Play!

KidSport is a children's charity who helps to fund sport registration fees for families facing financial obstacles for their children to participate in sport programs.

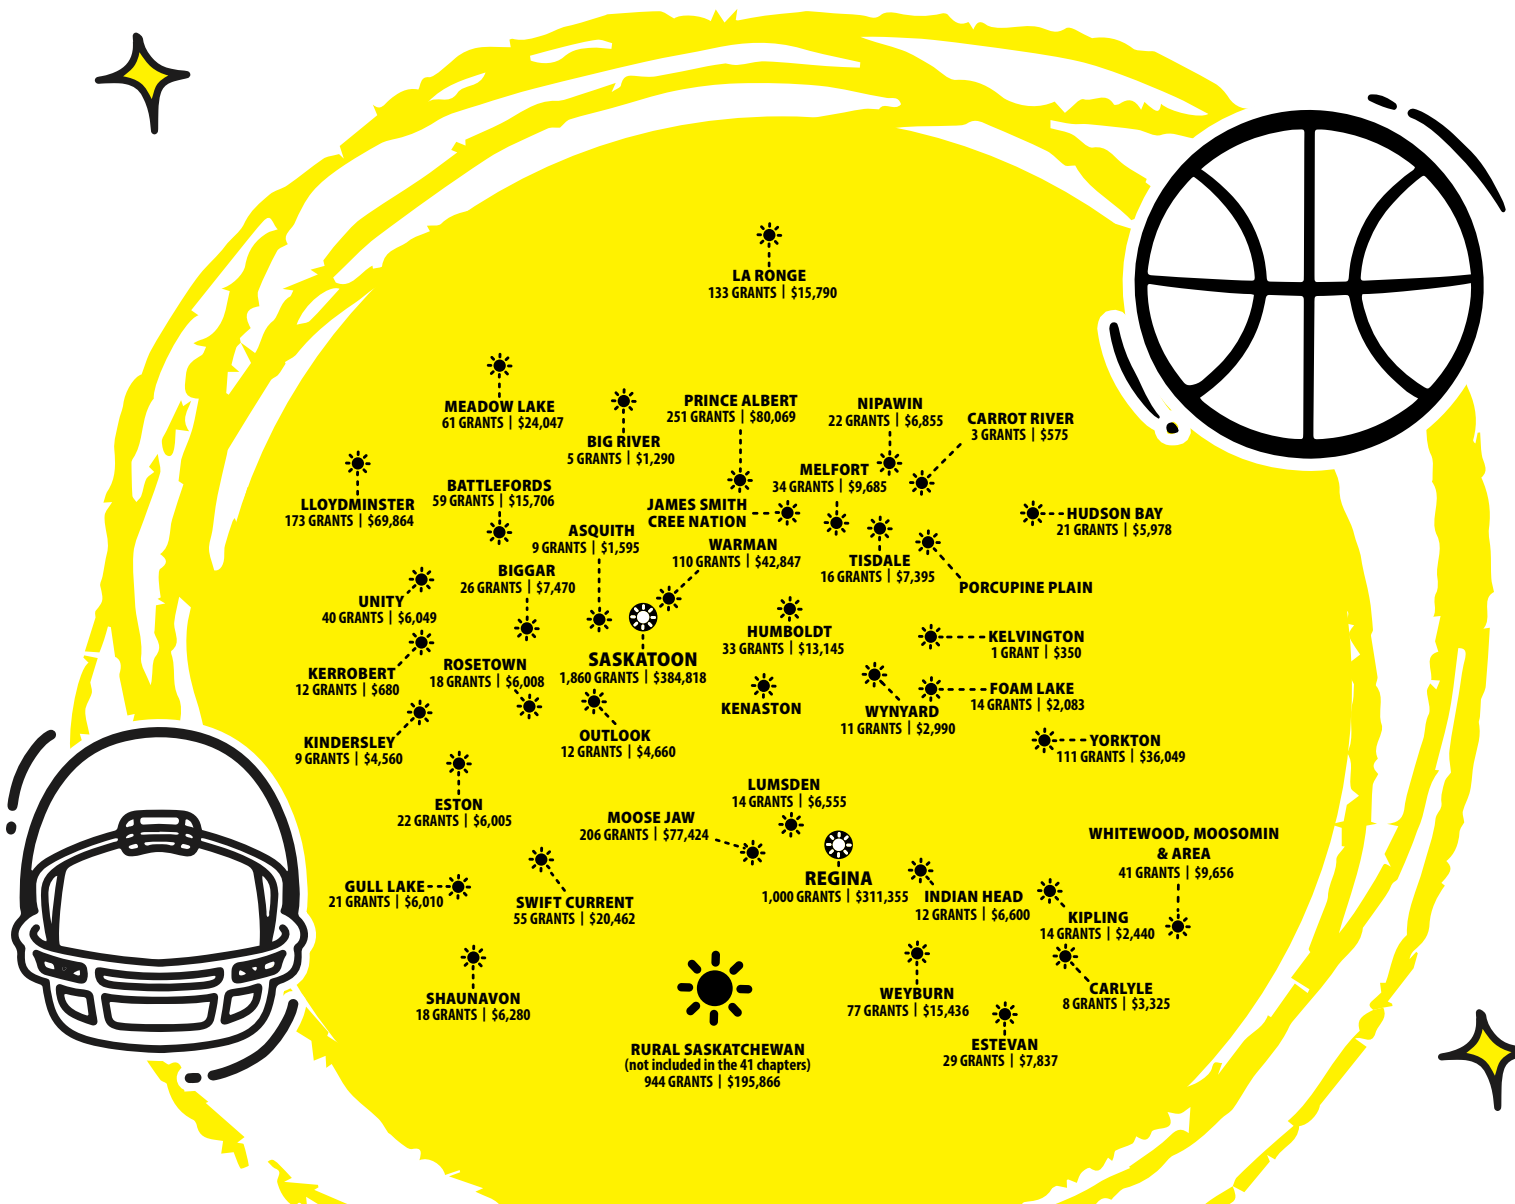

KidSport believes that no kid should be left on the sidelines and that all youth should be given the opportunity to experience the benefits of organized sport, including learning the fundamentals of teamwork, dedication and responsibility.
